

About US

Filter Concept Pvt. Ltd.

About US...

Filter Concept is one of the leading manufacturer and exporter of industrial filters. Our core business is micron & macron filtration of Air, Gas & Liquid for industrial applications.

With innovative approach and continuous efforts in application analysis and technical support, the company has grown to owning two offices, three production facilities and one warehouse.

We offer complete filtration technology solutions for various filtration requirements of air, gas & liquid to almost all industries like Oil & Gas, Petrochemicals, Pharmaceuticals, Steel & Power, Cement, Formulations, Fertilizers, Textile, Paints & Inks, Chemicals, Mines & Mineral, Electronics, Water Treatment, & many others.

That's not all, our products adhere to highest international quality standards of manufacturing and meet ISO 9001 standards and the international design standards like ASME, DIN, and BS Standards. Besides, we have wide-spread dealer and distribution network in all major cities in India and across the globe.

We have a strong customer base of 2000+, which includes Top 1000 companies of Indian Economy as well as International clients covered in Fortune 200 Companies.

We have achieved these heights with the support of our customers, our team members and our associates who always put their trust in our company and always encourage us to achieve the goals of the company.

Corporate Culture

We, at Filter Concept Pvt. Ltd., have been working towards averting the existence of redundant and superfluous materials, particularly which are infectious in nature and can render air, gas, and liquid pollution.

Vision

To become a frontrunner Company in Filtration business by providing world class quality products and services to our customers and maintain highest level of customer satisfaction.

Mission

Growth of Company, Employees and Associates by adopting advanced technology, positive attitude, teamwork & innovative approach.

Quality Policy

Since our inception, quality has been the sole guiding force. We have a separate department for maintaining the quality of our products. All the manufactured products are consigned to the department for inspection before their market release. Quality inspection is also an integral part of the manufacturing process. This process is separated stage-wise and the promotion of a product from one stage to another is subject to its fulfillment of prescribed quality criterions. We have a unique documentation system & material traceability systems for quality control of products. All our technicians are qualified in their respective areas.
